

New Title

Interpretation and Application of Tax Treaties

By Ned Shelton

Interpretation and Application of Tax Treaties is a new unprecedented title from Tottel Publishing giving practical guidance on the interpretation of tax treaties. Written from a planning perspective, this concise title aims to answer common questions arising from the application of tax treaties in a succinct way, while not diluting the treaties' complexity.

Interpretation and Application of Tax Treaties is presented in a clear and comprehensive format, with easy-to-follow chapters, and includes the latest and most up-to-date information available on the OECD Model Conventions as well as:

- Over 650 pages covering numerous jurisdictions
- An innovative case studies section
- Coverage of the method of interpretation of treaties in several countries
- A comprehensive index allowing you to find the information you require quickly

No other publication on the market covers the subject in such a practical manner making **Interpretation and Application of Tax Treaties** an essential building block for all international tax practitioners.

CONTENTS

1. Introduction
2. Domestic tax law of relevance to the application of tax treaties
3. The OECD model
